

YOUR ADVANTAGES AND APPLICATION FIELDS

Professional extinguishing unit for fire brigades, first responders, companies, enterprises, agricultural businesses, event organizers, cities and boroughs. Excellent protection and extinguishing properties are achieved with only 10 litres volume. Precious time between the execution of an emergency call and the arrival of the aid can be efficiently and safely used for extinguishing incipient fires or saving persons or animals. In cases when conventional extinguishers are insufficient, the VARIO 10 offers ideal protection for professional as well as untrained users.
